

Skandar Mokni

Address: Belgrade, Serbia

Phone: +381 65 3237658

Email: aleksandarrsd@gmail.com

PROFILE

Mechanical Design Engineer with experience in machine design, CAD assemblies, technical documentation, and design for manufacturing (DFM) within automated and CNC-based production environments.

EDUCATION

Faculty of Technical Sciences, University of Novi Sad

Novi Sad, Serbia

B.Sc in Mechanical Engineering - Mechanization and Construction Machines

2019-2024

WORK & LEADERSHIP EXPERIENCE

Marco&Co

Belgrade, Serbia

Furniture Design Engineer

November 2025- Present

- Custom furniture design in alignment with client requirements, spatial constraints, and budgetary targets.
- Engineering and modeling in Inventor, utilizing kinematic simulations to eliminate assembly conflicts and optimize material efficiency.
- Preparation of detailed technical documentation in AutoCAD.
- Development of CNC (G-code) using ArtCAM and AutoCAD DXF workflows for high-precision machining.
- Coordination with workshop teams and installers to ensure accurate fabrication and project execution.

Chaieb Marbrerie

Monastir, Tunisia

Production Supervisor

May 2025 – October 2025

- Supervised mechanical production processes, ensuring proper machine operation, and workflow efficiency.
- Coordinated maintenance and troubleshooting of production equipment to minimize downtime.
- Collaborated with management on technical improvements and production optimization initiatives.

Enova Robotics

Sousse, Tunisia

Intern, Mechanical Design Engineer

December 2024 – May 2025

- Designed an autonomous mechanical charging station for a mobile security robot using Solidworks.
- Evaluated multiple docking mechanism concepts and selected solutions based on reliability and cost.
- Worked closely with robotics and electronics engineers during system integration.

Triton Engineering

Novi Sad, Serbia

Intern, Mechanical Design Engineer

December 2022 – June 2023

- Participated in the design and development of manual and fully automated bottle labeling machines.
- Created detailed 3D models, assemblies, and 2D technical drawings using Autodesk Inventor.
- Designed plastic and sheet-metal components for laser cutting and fabrication; prepared DXF files.
- Generated CNC machining programs (CAM), defining tools, feeds, speeds, and machining strategies.

Formula Student Team Member – responsible for steering system design and brakes systems.

2023-2025

SKILLS, ACTIVITIES & INTERESTS

- **Languages:** Arabic (Native) | English (Fluent) | Serbian (Fluent) | French (Intermediate) | Italian (Basic)
- **Technical & Soft Skills:** Autodesk Inventor (Advanced) | Autocad (Advanced) | Catia (Advanced) | Solidworkds (Advanced) | Microsoft Office Suite (Advanced) | Design for Manufacturing (DFM) | CNC Programming (Advanced) | Laser Cutting & Sheet Metal Design | PLC (Intermediate) | Ai (Intermediate)
- **Certifications:** 3D Design | Python programming | English | CNC Programming
